Analysis and Process Alignment

One of the first steps in any cloud project is gathering information from different departments and stakeholders. We gain an in-depth understanding of your processes and metrics to align our solutions with your business needs.

Deployment and Customization

Centrax deploys cloud applications and infrastructure on behalf of customers. Whether you're an existing cloud customer, switching platforms, or implementing a solution for the first time, we help set up the most efficient system in a seamless and structured manner.

Cloud Migration and Systems Integration

We provide end-to-end services to ensure a smooth transition to the cloud. Our team handles everything from pre-migration complexity proofing and validation to the actual migration and integration of **your systems.**

End-to-End Service and Support

Our consultants are on hand to answer your questions, provide training on your applications, improve adoption rates, monitor your systems, and help out with any potential issues. We ensure continuous support to keep your cloud environment running smoothly.

Our Zoho Enterprise Business Solutions (EBS) practice is an end-to-end consulting, software implementation, and project management service dedicated to helping mid-range to large companies deploy the best solutions to optimize their business processes.
